

*„The highest aim of our life shall be, to always give our best and to share with others the Good and the Beautiful.“*  
(Philosopher's Path Table 6)

Dear friends of Yehudi Menuhin, who supported harmony inside **and outside** of the concert hall. Sir Menuhin received several prizes for his commitments to peace and he is a honorary citizen of Saanen/ Gstaad. These villages established a philosopher's path in his name and with his thoughts. **This path is an ethical obligation for the communities and their representatives.**

Recently we have learned that the Menuhin Festival in 2015 will be free of HSBC-sponsoring and -identification . We wish that the people in charge of the festival will make right and wise decisions to find decent partners. The artists, employees and guests will then no longer be humiliated by violent-profit-money\*, that is still used to finance this event.

**Thank you for supporting the Menuhin-ethos by spreading the message to all Saanenland - communities so Yehudi Menuhin's name will no longer be connected with inhuman organizations and injustice.**
